**DETAILED ACTION**

1. This communication is in response to applicant's amendment filed January 6, 2009. Claims 1, 7-11, 17-21, 24-28, 31-37, 39-42, 45-51, 53, 57-58, and 60-66 are currently pending in this case. Claims 25, 27-28, 31-36, 39, 41-42 and 45-50 are currently under examination. Claims 25 and 39 are currently amended.

***Election/Restrictions***

2. This application contains claims directed to the following patentably distinct species:

A. Claims 27, 41, drawn to layout information including data that represents position of probes on DNA.

B. Claims 28, 24 drawn to acquisition means comprising a scanner.

C. Claims 31, 45 drawn to registration means for storing authentication information.

D. Claims 33, 47, drawn to a DNA array comprising DNA probes.

E. Claims 34, 48, drawn to formation of DNA array.

F. Claims 35, 49, drawn to authentication and registration information containing person specific information.

G. Claims 36, 50, drawn to having the various apparatus connected via internet.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 25 and 39 are generic.

4. **Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined** even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5. The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the Any inquiry concerning this communication or earlier communications from the examiner should be directed to CRISTINA OWEN SHERR whose telephone number is (571)272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.
